# The Math Behind Roth Conversions

We have been reviewing our clients' tax planning to see if a Roth conversion is of benefit. Let's review why a Roth conversion may increase your wealth.

#### **HOW DOES A ROTH CONVERSION WORK?**

Anyone with an IRA can choose to convert to a Roth IRA. The amount converted is included in income on the tax return. The tax due can be paid out of the conversion or from outside funds. The Roth earnings are tax free after the conversion.

#### Assume a 24% Federal Tax Bracket and a \$100,000 IRA

Balance Converted\$	100,000
Tax @ 24%	( 24,000)
Conversion to Roth\$	76,000

## Assume an 8% investment return

	<u>Regular</u>	<u>Roth</u>
Beginning Balance	\$100,000	\$ 76,000
Balance in 15 Years	317,217	\$241,085
After Tax24% 28% 20%	\$241,085 228,396 253,774	\$241,085 241,085 241,085

A Roth Conversion is desirable if the tax rate now is lower than the tax rate in the future. If the rates are the same, there is no difference between converting and leaving the money in the regular IRA.

### SO WHY CONSIDER CONVERSION?

1.) Review the 2017 and 2022 tax tables at the bottom of this page. Note that a married couple in 2017 would pay 25% tax up to \$153,100 in income. In 2022, the couple could have income of up to \$340,100 and pay only 24% tax.

Tax rates are low now. Rates are likely to be the same or higher in the future.

2.) Review the Required Minimum Distribution table on the back page. For someone who is 72 in 2023 with a \$1 million IRA, the RMD will be \$36,496. By age 90, the RMD will be \$171,071.

Higher RMDs as you grow older will likely push you into a higher tax bracket.

3.) Note on the tax tables that a married couple can have up to \$340,100 and be taxed at 24% while a single taxpayer can only have \$170,050.

If you are married and one spouse dies, your RMDs will be taxed at a higher rate.

### **OUR SUGGESTION...**

The new tax law has given us the opportunity to do Roth Conversions at favorable tax rates. This is a good time to consider making Roth Conversions to take advantage of the tax brackets from 10 to 24%. We will review your tax situation and suggest a Roth conversion if it will benefit you.

2017 Rates			2022 Rates		
Rate	Single	Married	Rate	Single	Married
10%	\$0 - 9,325	<b>\$</b> 0 – 18,650	10%	\$0 – 10,275	\$0 - 20,550
15%	\$9,325 - 37,950	\$18,650 – 75,900	12%	\$10,275 – 41,775	\$20,550 - 83,550
25%	\$37,950 – 91,900	<b>\$75,900 – 153,100</b>	22%	\$41,775 – 89,075	\$83,550 – 178,150
28%	\$91,900 – 191,650	\$153,100 – 233,350	24%	\$89,075 – 170,050	\$178,150 – 340,100
33%	\$191,650 – 416,700	\$233,350 – 416,700	32%	\$170,050 – 215,950	\$340,100 – 431,900
35%	\$416,700 – 418,400	\$416,700 – 470,700	35%	\$215,950 - 539,900	\$431,900 - 647,850
39.6%	Over \$418,400	Over \$470,700	37%	Over \$539,000	Over \$647,850

Calculating Minimum Distributions for Qualified Plan or IRA
Current Year: 2023
Year of First Required Distribution: 2023
12/31/2022 Plan Balance: \$1,000,000.00
Expected Plan Growth: 10.0000%
Distributions Taken at Beginning of Each Year
Is there a Designated Beneficiary?: No
Owner's Birth Date: 1/1/1951
Assumes No Death Occurs During Years Shown
